Introducing the Luigi Trenti Collection

A Pure Florentine Designer.

Luigi Trenti was born in Florence in 1965. He graduated in industrial design from the Faculty of Architecture and since 1992, he has been involved in product design across various sectors, from lighting to furniture, from plumbing fixtures to household items, as well as luxury tools and accessories, for Italian and foreign clients. His products have won design awards and, in some cases, have become true trendsetters. In 2006, he founded the Tuscan delegation of the ADI, serving as its President, and the Territorial Observatory for Design, taking on the role of Coordinator. In 2013, he conceived and founded MuDeTo, the first online design museum, of which he is currently the President. He has been engaged in university teaching for over a decade, teaching courses at renowned design schools such as ISIA, IED, and LABA.
